

A photograph of several construction workers wearing yellow hard hats and safety glasses, gathered around a large set of blueprints in an outdoor setting with hills in the background.

COMPANY PROFILE

OUR HERITAGE

RIZZO International, Inc. is an award-winning, highly focused firm specializing in all aspects of the civil engineering and earth sciences fields for the dams, nuclear power plants, and tunneling markets. For over a quarter century our firm has worked around the world on unique, challenging, and technically demanding projects. We continually strive to exceed our clients' expectations by providing innovative and economically smart solutions.

OUR CORPORATE COMMITMENT

At RIZZO, we take great pride in our commitment to providing personal and professional services in a responsive, high-quality manner. There is no doubt our services are a direct reflection of our individual capabilities, personalities, and experiences. Consequently, we strive to build client/consultant relationships that are mutually rewarding.

Establishing close relationships with our clients is a key element to reaching total solutions. We cultivate each client relationship from the initial concept to completion, often maintaining this contact years after a project is finished.

We believe successful consulting is achieved through a balance of significant experience, a working knowledge of today's best practices, and access to cutting edge technology. We offer expertise that goes beyond "state of the practice" to include innovative solutions using techniques usually found in academic and research institutions. Accordingly, we take a proactive approach to worldwide staff recruitment and development, and maintain close ties to universities and national laboratories.

OUR EXPERTISE

Many of our engineers and scientists are registered professionals with advanced degrees in their respective fields of study. Embracing a hands-on approach with our projects, staff, and clients, we routinely mentor our emerging engineers to ensure we provide an unwavering level of service to our clients. We believe this blend of seasoned engineering experts and bright, young talent is essential when engineering for the future!

OUR COMPREHENSIVE IN-HOUSE SERVICES INCLUDE:

Engineering Design | Construction Engineering Support

Hydrogeology | Hydrologic & Hydraulic Engineering

RIZZO's Quality Assurance (QA) Program has been audited by NUPIC and it meets the requirements of Title 10 CFR 50 Appendix B and ASME NQA-1-1994 and NQA-1-2008 (and the NQA-1a-2009 Addenda). We are certified under ISO 9001:2008 for provision of professional engineering and consulting services.

GLOBAL EXPERIENCE

Members of the RIZZO team have been developing international relationships for several decades. We have worked on sites throughout the United States, South America, Europe, the Middle East, Africa, Australia, and Asia.

Our work on projects throughout the world has exposed us to a wide variety of site conditions. We have faced many unusual situations, including access problems, adversary adjacent property owners, political strife, and public hearings in several languages. We have served a variety of clients, including governments, global companies, multinational corporations, and international lending agencies and banks.
