DR. MELISSA DUBINSKY REPRESENTS RIZZO AT EX-IM BANK ROUNDTABLE

On January 22, 2015, Vice President of Power Generation Project Development, Dr. Melissa Dubinsky, represented RIZZO Associates as a supplier at a U.S. Export-Import Bank roundtable discussion held at Westinghouse's Warrendale, PA facility. The group discussed the importance of the U.S. Ex-Im Bank reauthorization to U.S. businesses in the global market of the nuclear sector with Ex-Im Bank Chairman Fred Hochberg.

The Ex-Im Bank supplies loans to our global nuclear customers. These loans are then paid back with interest to the U.S. Treasury to help U.S. based corporations compete on a world wide scale. According to Dr. Dubinsky, "Lacking the Export-Import Bank financing, U.S. vendors and RIZZO, as a supply chain vendor, are at a distinct disadvantage, and practically speaking we're eliminated at the start."
