RIZZO'S ZHU PUBLISHED IN INAUGURAL ASCE-ASME JOURNAL

A paper coauthored by RIZZO's own Dr. Benjin Zhu has been published in the inaugural issue of "ASCE-ASME Journal of Risk and Uncertainty in Engineering Systems, Part A: Civil Engineering". The scope of this journal includes topics directly related to SPRA and other Risk and Safety Assessments for the Nuclear Industry and other practice areas where future design efforts are increasingly shifting to probabilistic methods. The paper can be viewed on the ASCE website. <http://ascelibrary.org/doi/abs/10.1061/AJRUA6.0000808>
